Hoffman *Quality* "Wong" Barley

Assures You All Seven Features

- 1** **HEAVY YIELD**—Averages in some seasons have run 60 bushels and more per acre. Yields of real size that certainly help a lot on any farm.
- 2** **HIGH FEED VALUE**—Stock like it, experienced men like to feed it. Many folks have claimed it to be a good second to corn in actual feed value.
- 3** **SELECTED, CLEANED SEED STOCK**—True-to-type seed from fields checked for quality. Assurance of a high-grade, completely uniform crop. Insurance against weeds and other foul matter.
- 4** **"CERESAN" TREATMENT**—Protection against certain smut, blight, and seed rotting. All Hoffman Wong Barley Seed is thoroughly cleaned and treated before shipment.
- 5** **STOOLS OUT WELL**—Much of the high production of Hoffman Wong Barley comes from its ability to often grow several stems from one seed kernel.
- 6** **STIFF STEMMED**—Easy to harvest, handles fine and makes a good straw crop.
- 7** **MINIMUM BEARD**—What little beard there is disappears at threshing.

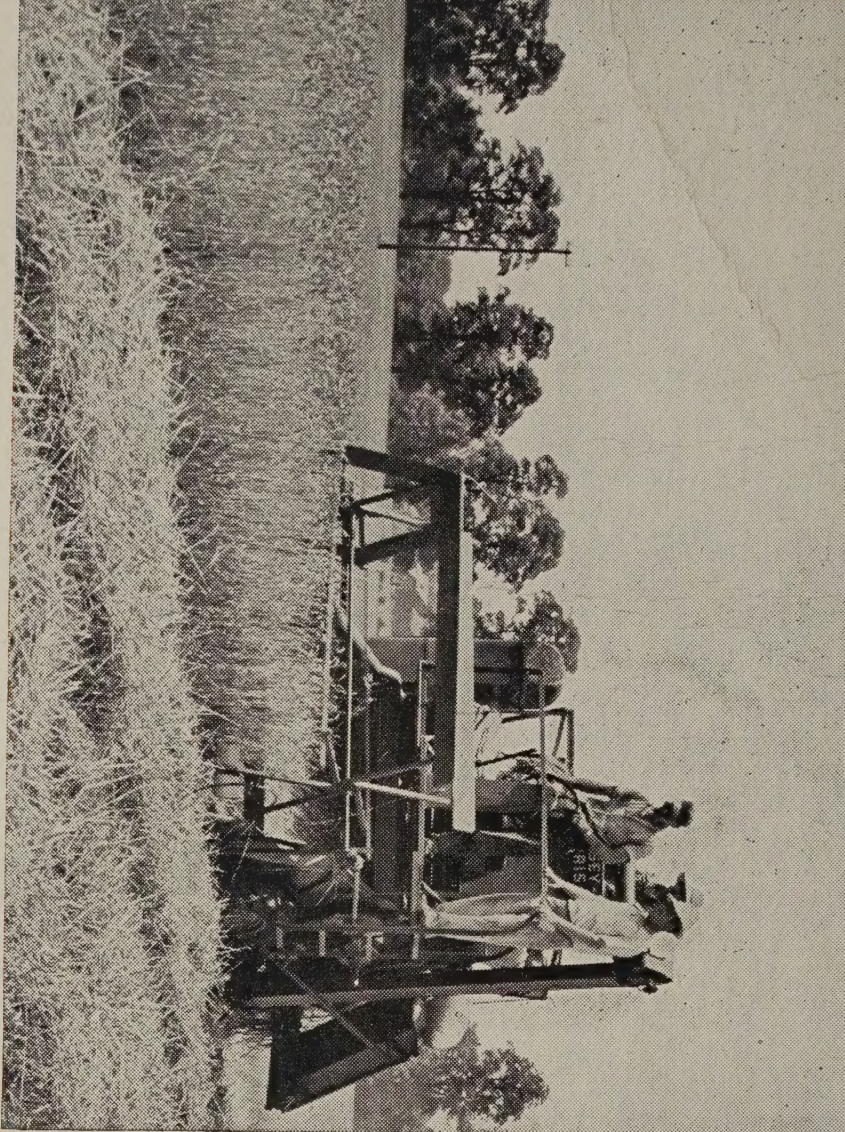

With foreign calls upon U. S. grain still running high, take steps to be insured against a short market in grains. Let this Hoffman Wong Barley Seed take care of you, against insufficient feed for your stock. Its early harvest comes in fine when other supplies are low. **ORDER NOW.** Demand will likely be again heavy. Figure 1 $\frac{3}{4}$ to 2 bushels per acre.
